

We Pay for Quality Project Photos!

RoofScreen Mfg. is always looking for good project photos to showcase our products. So grab your camera, start shooting and we'll send you a **\$50 Home Depot gift card!**

Here's How it Works

- 1 **Take pictures of the RoofScreen product:** We are looking for a good mix of mid progress and completed project pictures from both the roof and the ground. Before and after shots from the same point on the ground are always good.
- 2 **Upload your images to: www.roofscreen.com.** Click on the Submit New Photos link, under the Photo Gallery heading. You will need to register with your name and address so we know who to send the gift card to. Then complete the Submit New Photos form, attach your photos and click the Upload button.
- 3 **We then send you a \$50 gift card for Home Depot.**

A Few Rules Apply

- 1 You must use a digital camera with a minimum of three mega pixels (Cell phone cameras won't work for this).
- 2 Pictures must be of good quality and portray the use of our products well enough to use on our website or in brochures.
- 3 We must be able to use at least five photos from your submission.
- 4 Whether the photos are usable or not is at the sole discretion of RoofScreen Mfg.

Tips for Taking Pictures

- 1 Make sure the area is clean. Pick up any tools, debris or materials that may be lying around on the roof that will be visible in the photo.
- 2 The sun should be to your back when taking a photo.
- 3 The sun should be lighting up the subject of the photo.
- 4 Don't take pictures of items that are covered by shadows.
- 5 Pay attention to detail. For instance, don't take a picture of a panel with a big scratch or dirty fingerprints on it. Think about the picture being in a brochure.
