Flush Textured Panel Specifications

Textured panels provide a much softer look that blends well with stucco or concrete buildings. This is a locking panel with concealed fasteners and it can be installed with reveals on all 4 sides of the panel if desired.

- Material: 20ga steel
- Length: Up to 20'. Extra charges may apply for lengths shorter than 4'
- Finish: Factory applied textured paint
- Colors: Custom match to any color
- Warranty: 20 years
- Installation: Vertical or horizontal. Special backing plates used to create reveals
- Attachment: Concealed fasteners

Fastening pattern:

- Vertical installation: 1 screw per panel at each hat or Zee
- Horizontal installation: 1 screws per panel at each frame

“Oil canning”, a slight rippling effect due to expansion and contraction, is an inherent property of flat metal products, and is not a cause for rejection. Non ribbed style panels are particularly vulnerable to oil canning. Please visit our website under our support section and view the technical bulletin titled Oil Canning.
